Ifechukwu Uzoma

A Mobile Application Developer with 2+ years of experience in React Native, building high-quality cross-platform apps with seamless performance and engaging user experiences. Proficient in JavaScript, TypeScript, and modern UI frameworks, with hands-on expertise in navigation, API integration, state management, and performance optimization. Known for writing clean, modular code, collaborating effectively in agile teams, and delivering scalable, user-focused mobile solutions while staying current with emerging technologies.

Experience

2023 - 2024

Freelance - Project: Wellness-N, Martial-N

Mobile Developer

- Developed and implemented CRUD operations for examiners, events, athletes and coaches, enhancing system functionality and data management.
- Designed and optimized CRUD operations for schools in the Martial section, implementing both create/edit and fetch functionality.
- Delivered clean, efficient code, contributing to the app's stability and performance, ensuring a seamless user experience.
- Worked collaboratively with a diverse team of professionals from different nationalities, contributing to an international project, ensuring smooth communication and coordination across cultures.
- Worked collaboratively in a team setting, contributing to timely updates and code reviews via GitHub.

2025 - Till Date

SmallClosedWorld International Limited – 2025

Mobile Developer

User Experience | App Architecture | Cross-Functional Collaboration

- Built real-time messaging with WebSockets, enabling seamless in-app communication.
- Refactored Home Screen and React Query codebase, reducing redundant logic and boosting performance.
- Implemented global user context and optimized navigation, improving reliability and user trust.
- Introduced guest access and secure logout, increasing onboarding and retention.
- Shipped social features (@mentions, sharing, reporting, profile tools) to drive engagement.
- Fixed engagement bugs (likes, boosts) and optimized app performance for smoother interactions.
- Integrated in-app analytics, empowering product and marketing with actionable insights.
